1. OVERVIEW

This is a digital product studio: the practice of researching, designing, building, and maintaining digital products for people who need them to work well and look considered. A website is one kind of digital product. A mobile app, an internal tool, a design system, or a piece of marketing content are others. The services in this agreement are organized so a client can pick up wherever their product is (from a first sketch of an idea through a shipped application).

This retainer provides ongoing website maintenance, digital marketing support, content management, and/or promotional assistance designed to maintain a professional online presence and support business growth. Website creation, product design, and software development are available as standalone projects, in combination with each other, or in combination with a retainer.

This agreement uses a mix-and-match model for its recurring services. Rather than choosing from a fixed package, the client selects the individual services they need from the menus in this agreement, and the total monthly retainer fee is the sum of the services selected. Suggested Starting Bundles are provided later in this agreement as premade reference points, but the client is free to combine any services listed to build a plan tailored to their needs.

All listed prices are starting prices unless otherwise stated and are subject to change based on project complexity, scope, client-supplied assets, and turnaround requirements.

Any services outside the scope of what is selected under this agreement may be quoted separately and will require written approval before work begins.

2. WORKING TOGETHER: MY APPROACH

A short note on how I work, so there are no surprises before we start.

Design Philosophy

Good digital products are judged by the people who use them. Every recommendation here starts from what the end user needs to accomplish, then works backward into visuals, code, and content. Design and engineering are treated as one continuous discipline, which is part of why this studio can carry a project all the way from a research session to a shipped, working product.

Communication Style

Plain, direct, and in writing wherever it matters. Status updates happen on a predictable rhythm rather than only when asked. If something is behind schedule, over budget, or not going to work the way it was originally scoped, the client hears that as soon as it's known.

Honest Recommendations

Part of this job is telling a client when a cheaper or simpler option will serve them just as well, and telling them when a request is likely to cost more or take longer than they expect. The goal is a client's long-term trust.

Maintainable Solutions

Every website and application built under this agreement is built with modern tooling and clean structure, specifically so it can be handed off, extended, or maintained by someone else later if a client's needs ever change. Nothing is built to lock a client in.

End-to-End Workflow

Because research, design, and development live under one roof here, a client can start a project at any stage and continue as far into production as they need.

3. HOW PROJECTS TYPICALLY WORK

Most engagements, large or small, move through the same general stages. Not every project needs every stage, but this is the typical shape of a full project.

Stage	What Happens
1. Initial Conversation	A no-obligation conversation about what the client needs, their timeline, and their budget range, to confirm this is a good fit before any formal scoping begins.
2. Discovery	Research into the client's goals, users, and existing assets. For larger projects this may include stakeholder interviews or structured UX research; for smaller ones it may be a single scoping call.
3. Proposal	A written proposal confirming exact scope, timeline, and price, based on Discovery. Work does not begin until this is signed and any required deposit is paid.
4. Design	Flows, wireframes, and/or visual UI design, depending on what the project needs. The client reviews and approves designs before development begins.
5. Development	Building the approved design into a real, working website or application, using modern, maintainable code.
6. Review	The client tests the finished work against the agreed scope. Revisions within scope are addressed here.
7. Launch	The finished product goes live, with final files and access handed over per the terms of this agreement.
8. Ongoing Support	An optional maintenance retainer keeps the product running, secure, and up to date after launch - see Website Maintenance and the rest of the Monthly Retainer Menu below.

Smaller, well-defined requests (a content update, a single graphic, a short piece of copy) move directly to Development/production without a formal Discovery or Proposal stage, though written approval of scope and price is always confirmed first.

Retainer Limits & Allocations

- Where a selected service includes a stated quantity (such as content updates, listings, or posts per month), that quantity represents the total monthly allocation for that item.
- Quantities are tied to the specific service tier or add-on selected. Upgrading or adding a higher-quantity option replaces the lower one; quantities from different tiers of the same service are not cumulative unless both are explicitly selected as separate line items.
- Unused monthly allocations do not carry forward into future months.
- All recurring monthly services are billed in full-month increments. Services added mid-month are billed a prorated amount for the remainder of that month, then in full for each subsequent month.

How to Build Your Retainer

This retainer is built by selecting services from the menus under Monthly Retainer Menu. The client may select any combination of items across Website Maintenance, Social Media Support, Promotional Materials, Advertising Campaign Management, Reporting & Strategy, and Email Marketing.

1. Choose a Website Maintenance Core Care tier

Basic Care, Standard Care, or Advanced Care (see Website Maintenance below). A Core Care tier is required for any retainer that includes ongoing website maintenance.

2. Add any additional recurring services

Social media post packages, flyer subscriptions, advertising campaign management, reporting, ongoing content writing, and any other recurring items needed, each priced individually.

3. Total monthly retainer fee

The client's monthly retainer fee is the sum of all selected recurring items. This total is confirmed in writing before the retainer begins and is reflected on the client's recurring invoice.

4. Setup fee

A one-time setup fee applies to all new retainers, billed with the first invoice, and is based on the size of the client's initial selection:

- \$350 CAD - combined monthly retainer total under \$1,500 CAD/month
- \$500 CAD - combined monthly retainer total of \$1,500 CAD/month or more

The setup fee covers onboarding, brand asset collection, access setup, and initial account configuration. Onboarding is deemed to have commenced once the client has signed this agreement and paid the first invoice; from that point, the setup fee is non-refundable regardless of the amount of onboarding work completed.

5. Minimum monthly retainer

A combined monthly retainer total of at least \$500 CAD/month is required to maintain an active retainer under this agreement. Clients whose needs fall below this threshold are welcome to use the One-Time / Project-Based Services Menu instead without entering into a retainer.

If a change to the client's Custom Retainer Selection reduces the combined monthly retainer total below this minimum, the retainer will terminate effective thirty (30) days from the date of the change, consistent with the notice period for voluntary cancellation under General Terms. Upon termination under this clause, the client's account converts to the One-Time / Project-Based Services Menu, and no further recurring retainer services will be billed.

6. Changing your selection

Services may be added at any time, effective the next billing cycle unless otherwise agreed in writing. Services may be removed with thirty (30) days written notice. Adding or removing services does not restart the setup fee or the initial term described under General Terms.

Upgrading the tier of an included item does not affect bundle pricing or the setup fee waiver; this differs from removing an item entirely.

Support & Response Time Levels

All retainers include Standard Support at no additional charge. Clients needing faster turnaround may add Priority Support.

Support Level	Price	Details
Standard Support (included)	Included	Email and phone support during business hours. Target response time of 1 - 5 business days.
Priority Support (add-on)	\$150/mo	Email, phone, and SMS support during business hours. Target response time of 1 - 2 business days.

Rush requests on individual deliverables (delivery within 48 hours of submission) are billed separately at a 25% surcharge per item regardless of support level, and are accepted at the service provider's discretion.

4. WEBSITE CREATION SERVICES

Custom website design and development is available as a standalone project or in combination with a retainer. All websites are fully custom-coded using a modern framework (such as React/Next.js with TypeScript), no website builders or templates, and are built mobile-minded, performance-optimized, and SEO-ready from launch.

A one-time setup fee (see pricing table) applies to all new website projects; it covers discovery, planning, and initial access configuration. The project scope, timeline, and total price are confirmed in a separate written project proposal before work begins.

Website Packages

Package	Price Range (CAD)	Best For
Starter Site	\$3,000 - \$4,500	1–3 page informational site, single contact form, mobile responsive, basic on-page SEO.
Business Site	\$4,500 - \$7,500	5–8 pages, custom page layouts, blog/news section, full on-page SEO architecture, up to one dynamic feature.
Professional Site	\$7,500 - \$15,000+ depending on scope	8+ pages, searchable/filterable catalogue or portfolio system, image lightbox gallery, custom inquiry forms, animation/slideshow systems, FAQ system, full SEO + OG/social sharing, scalable component architecture.
E-Commerce / Custom	From \$10,000, quoted on scope	Online store, booking systems, membership areas, admin dashboards, custom integrations, or other complex custom application features.

The price within each range depends on the number of pages, the amount and complexity of Feature & Functionality Add-Ons selected, and the overall scope of the build; the low end reflects a lean, straightforward build at that package's minimum scope, and the high end reflects a fully loaded build at that package's maximum reasonable scope. The exact price is confirmed in the written project proposal before work begins.

Website Package page counts assume standard content pages (text, images, standard layout). Pages that include a searchable/filterable system, gallery, booking, or similar interactive feature are priced using the Feature & Functionality Add-Ons below, in addition to the Website Package.

Feature & Functionality Add-Ons

Any Website Package can be built up with the features below to match the exact level of functionality required. This is how a Starter or Business Site can be scaled toward Professional Site-level functionality without paying for a full tier upgrade.

Several features below scale with data volume or complexity rather than being a single flat rate. Each price shows what is included at that starting rate and the cost to extend beyond it.

Feature	Starting Price	Included Scope / Additional Cost
Custom searchable/filterable catalogue, product, or portfolio system	From \$1,200	Includes up to 25 catalog items and up to 3 filter categories. Additional items: \$150/block of 25. Additional filter categories: \$100 each.
Image gallery with lightbox viewer	From \$350	Includes up to 20 images (sourced, tagged, and optimized). Additional images: \$75/block of 20.
Hero slideshow / promotional animation system	From \$300	Includes up to 6 slides. Additional slides: \$50 each.
FAQ accordion system	From \$200	Includes up to 10 Q&A entries. Additional entries: \$25 each.
Dynamic contact/inquiry form (multi-field, pre-filled query routing)	From \$250	Includes up to 8 fields and 1 routing rule. Additional fields: \$50 each. Additional routing rules: \$50 each.
Multi-language support	From \$500	Covers one additional language. Each further language: \$350.
Membership or login system	From \$1,500	Includes a single account tier. Additional account tiers/permission levels: \$400 each.
Blog or news system (dated, structured posts)	\$600	System build only — a fixed-scope feature regardless of post count. Post writing is priced separately (see Creative & Content Writing Services).
Additional page (beyond package allocation)	\$300	Standard content page. Pages requiring their own interactive system (catalog, booking, etc.) are priced as that feature instead.
Major page redesign	\$600	Same base rate and increment structure as under One-Time / Project-Based Services → Website Development.
Custom animations or interactions beyond standard	From \$250	Highly variable by complexity - quoted after scope review.
Booking/scheduling system integration	From \$800	Highly variable by calendar/payment integration complexity - quoted after scope review.
New feature or functionality (general)	From \$300	Catch-all for anything not listed above - quoted after scope review.
All Packages Include		Common Additional Services
Custom code (no templates) Mobile responsive layout On-page SEO setup OG / social sharing tags Contact form or inquiry system 30-day post-launch support		Copywriting (from \$200/page) Logo design (from \$1,000) Google Analytics setup (\$250) Photography sourcing or editing E-commerce / shop setup (quoted) Ongoing maintenance retainer

Website Creation Terms

- A non-refundable deposit of 50% of the agreed project fee is required before work begins.
- The remaining balance is due upon project completion and prior to final file delivery or site launch.
- The project scope, timeline, and total price (including any Feature & Functionality Add-Ons selected) are confirmed in a separate written project proposal before work begins.
- Revisions beyond the agreed scope are billed at \$75 CAD per minor revision round (text, colour, or copy changes) or \$150 CAD per major revision round (layout, structural, or functional changes).
- The client is responsible for providing all content, images, and brand assets within the agreed timeline. Delays caused by missing client assets may affect the project delivery date and are not the responsibility of the service provider.
- Ownership of the completed website and all custom-created assets transfers to the client upon receipt of full payment.

Website creation projects are separate from the monthly retainer. A retainer may be added following launch to cover ongoing maintenance and marketing support.

5. PRODUCT DESIGN & DEVELOPMENT SERVICES

Product and UX design services, and the production application development that can follow them, are available as standalone engagements at any stage or in combination with a website build. This is the service provider's core area of specialization, and pricing reflects senior-level, portfolio-backed expertise across both design and full-stack engineering.

Three distinct disciplines make up this section, and a client can enter or exit at any of them:

- UX Design covers research, structure, and interaction - flows and wireframes.
- Product Design covers the visual, systemized, production-ready layer built on top of it - UI design and design systems.
- Development is the production build - turning an approved design into a real, working, deployed application.

A client who only needs one of these (for example, a team that already has its own designs and just needs them built) can start directly at Development. A client starting from a blank idea can move through all three in sequence.

Service Tiers at a Glance

Tier	Price Range (CAD)	Best For
Product Design	\$750 - \$7,950 (see UX Design, Product Design, and Combined tables below)	Discovery through a polished, clickable prototype. Design only - no code is shipped to production.
Product Design & Development	From \$10,000 - \$35,000+	Full design-to-launch engagement: a real, production-ready application researched, designed, built, and shipped on one platform.
Enterprise / Custom	Quoted individually	Multi-platform builds, complex backend infrastructure, ongoing product development, or any engagement that needs dedicated scoping before a price can be set.

The exact price and scope of any Product Design & Development or Enterprise/Custom engagement are confirmed in a written project proposal before work begins, following the same process described under How Projects Typically Work.

UX Design

Service	Starting Price (CAD)
Discovery & UX research (stakeholder interviews, user research synthesis, up to 3 sessions)	\$750
User flow mapping (per flow)	\$300/flow
Wireframes - low-fidelity (per screen)	\$150/screen
Wireframes - high-fidelity (per screen)	\$275/screen

Product Design

Service	Starting Price (CAD)
Visual & UI design (high-fidelity, production-ready screens, per screen)	\$325/screen
Design system (component library, style guide & documentation)	From \$3,500

Visual & UI design covers the polished, on-brand screen designs built from approved wireframes or flows. Design systems are scoped individually in writing based on component count and platform; the starting price reflects a small-to-mid-sized system.

Combined / End-to-End Design

Service	Starting Price (CAD)
Interactive prototype (click-through, up to 8 connected screens)	From \$1,800

Interactive prototypes beyond 8 connected screens are billed at \$125/screen. For a full research-through-development engagement, see Product Design & Development below.

Product Design & Development

This is the full build: everything above, carried through to a real, deployed application. Pricing starts at \$10,000 CAD and scales with platform count, feature complexity, and integration requirements, using the Development Add-Ons below as the building blocks.

Build Scope	Starting Price (CAD)	Typical Scope
Foundation Build	From \$10,000	A single-platform web application covering one core user flow - comparable to a validated MVP.
Standard Application	From \$18,000	A multi-feature web or mobile application with accounts, a database, and connected flows.
Advanced Application	From \$30,000+	Complex business logic, real-time features, custom backend infrastructure, and/or multi-platform delivery.

Development Add-Ons

Add-ons stack on top of any Product Design & Development build to match the exact functionality required, following the same starting-price-plus-increment logic as the Website Feature & Functionality Add-Ons above.

Feature	Starting Price	Included Scope / Additional Cost
User authentication & account system	From \$1,200	Includes a single role/permission tier. Additional tiers: \$400 each.
Payment processing integration	From \$1,500	Includes one payment flow. Additional payment methods or subscription tiers: \$500 each.
Admin dashboard / back-office panel	From \$2,000	Includes up to 5 management views. Additional views: \$300 each.
Real-time features (live data, chat, notifications)	From \$1,800	Highly variable by complexity - quoted after scope review.
Third-party API integration	From \$500/integration	Straightforward, documented APIs. Complex or undocumented APIs - quoted individually.
Database design & architecture	From \$800	Standard relational schema. Complex or multi-tenant schemas - quoted individually.
Native app packaging & app store submission (per platform)	From \$1,200	Includes one store and one submission cycle. Additional platforms or resubmissions available for \$400 each.
Automated testing suite	From \$600	Covers core user flows identified during Discovery.
DevOps / CI-CD pipeline & hosting setup	From \$500	Standard cloud hosting configuration.
Post-launch iteration sprint (2-week block)	\$1,500/sprint	Bug fixes and small feature additions after launch, outside the 30-day post-launch support window.
Custom development (outside defined scope)	Quoted individually	For anything that doesn't fit a fixed line above. Scoped into a fixed project price before work begins, typically \$750 - \$5,000+ per addition depending on complexity (never billed as a metered rate).

Every price in this section, including custom development, is a fixed project price confirmed in writing before work begins. Development pricing scales with genuine complexity, not hours logged. An experienced build moves faster, but the client is paying for the judgment that prevents costly rework later, not for time on the clock.

6. PREMADE BUNDLES

The bundles below are example combinations of the Menu services in this agreement, shown for convenience as common starting points. Each Suggested Starting Bundle includes a bundle discount off the combined individual prices of its items, shown below as Bundle Savings, and waives the one-time setup fee described under How To Build Your Retainer. Outside of a Suggested Starting Bundle, the price of a Custom Retainer Selection reflects the sum of the specific items selected, with no bundle discount applied.

Suggested Starting Bundles are offered as fixed, pre-configured selections. A client may add any additional services on top of a Suggested Starting Bundle without affecting the discounted pricing or setup fee waiver applied to the original bundle items. However, if a client removes any item from a Suggested Starting Bundle, the client is no longer purchasing that bundle; the remaining items will instead be billed as a Custom Retainer Selection at standard individual pricing, and the bundle discount and setup fee waiver will no longer apply.

Product Design & Development Bundles

Bundled engagements for clients who want a complete design foundation before development begins, and a clear, honest path into development for clients who want to keep going. Each bundle includes a savings versus selecting its items individually.

Discovery & Flow Bundle

For clients who need research, structure, and validated flows before any visual design begins. Ideal ahead of an in-house or external visual design phase.

Service	Package Price (CAD)
Discovery & UX research, up to 3 user flows, and up to 10 high-fidelity wireframe screens	\$3,900

Package Savings: \$500 versus selecting these items individually.

UI & Design System Bundle

For clients who already have wireframes or flows in hand and need the polished, production-ready visual layer.

Service	Package Price (CAD)
Visual & UI design (up to 10 screens) and a design system starting scope	\$6,000

Package Savings: \$750 versus selecting these items individually. Final design system scope is confirmed in writing based on component count.

Prototype Bundle

The complete design path from discovery through a clickable, on-brand prototype. For clients who want a convincing and testable design before committing to a build. This bundle ends at the prototype/development level; no production code is shipped, and a design system is not included.

Service	Package Price (CAD)
Discovery & UX research, up to 3 user flows, up to 10 high-fidelity wireframe screens, visual & UI design for those screens, and an interactive prototype (up to 8 connected screens)	\$7,950

Package Savings: \$1,500 versus selecting these items individually. A design system, and production development, may be added separately.

Product Launch Bundle

For a client who already knows they want to build, this is the full design phase bundled at a fixed price, leading directly into a Product Design & Development build.

Service	Package Price (CAD)
Discovery & UX research, up to 3 user flows, up to 10 high-fidelity wireframe screens, and visual & UI design for those screens	\$6,750
Product Design & Development build (Foundation tier or above)	Scoped and quoted separately, starting at \$10,000

Design-phase Package Savings: \$900 versus selecting the design items individually (\$7,650). Development is intentionally priced separately rather than folded into a fixed bundle number, since build complexity varies too much client-to-client to set one flat price; the Foundation tier starting price above is a floor, not an estimate range.

Web & Marketing Bundles

Essentials Bundle

A lean starting point for businesses that want a professional, well-maintained website and ongoing strategic guidance, without social media management or design services.

Included Item	Monthly Price
Website Maintenance – Basic Care	\$275/mo
SEO Monitoring & Optimization	\$175/mo
Ongoing Marketing Strategy Consultation	\$150/mo
Setup Fee	\$350

Bundle Savings: \$50/month | Combined Monthly Total: \$550 CAD/month | Setup Fee (Waived)

Foundation Bundle

A starting point for small or newly launched businesses needing foundational maintenance and a basic marketing presence.

Included Item	Monthly Price
Website Maintenance – Basic Care	\$275/mo
SEO Monitoring & Optimization	\$175/mo
Promotional Flyer Subscription – Basic	\$300/mo
Setup Fee	\$350

Bundle Savings: \$50/month | Combined Monthly Total: \$700 CAD/month | Setup Fee (Waived)

Advanced Bundle

A starting point for growing businesses requiring expanded content management and increased marketing output.

Included Item	Monthly Price
Website Maintenance – Advanced Care	\$650/mo
Social Media – 8 posts/mo	\$325/mo
SEO Monitoring & Optimization	\$175/mo
Promotional Flyer Subscription – Basic	\$300/mo
Content Calendar (ongoing)	\$150/mo
Setup Fee	\$500

Bundle Savings: \$100/month | Combined Monthly Total: \$1,500 CAD/month | Setup Fee (Waived)

Complete Bundle

A starting point for businesses seeking comprehensive website management, full marketing support, active advertising oversight, detailed reporting, and priority response times.

Included Item	Monthly Price
Website Maintenance – Advanced Care	\$650/mo
Social Media – 12 posts/mo	\$450/mo
SEO Monitoring & Optimization	\$175/mo
Promotional Flyer Subscription – Basic	\$300/mo
Content Calendar (ongoing)	\$150/mo
Ad Campaign Management – 2 active campaigns	\$550/mo
Monthly Performance Report	\$125/mo
Priority Support	\$150/mo
Setup Fee	\$500

Bundle Savings: \$150/month | Combined Monthly Total: \$2,400 CAD/month | Setup Fee (Waived)

Bundles above use the Basic tier for the Promotional Flyer Subscription. Swap in the Standard or Advanced tier from the Promotional Materials menu below for a more elevated design level, and the combined monthly total will adjust accordingly.

Advertising spend for any ad campaign is paid directly by the client and is not included in any bundle price or the monthly retainer fee.

7. CREATIVE & CONTENT WRITING SERVICES

Words are part of the product, not an afterthought bolted on at the end. This section covers every form of writing available, from a single web page to ongoing editorial support, and is available as a standalone engagement or alongside any website, product design, or development project.

As with Product & UX/UI Design Services above, where Basic / Standard / Advanced tiers are shown, the tier reflects the depth of research, structure, and polish involved, not the level of care applied. Every piece is written to a professional standard; the tier simply matches price to scope.

Website & Marketing Copywriting

Tier	Price	Details
Basic	\$200/page	Clear, SEO-aware copy based on client-provided information, up to 1 revision round.
Standard	\$300/page	Refined, conversion-focused copy with light research/competitor review, up to 2 revision rounds.
Advanced	\$500/page	In-depth research, brand voice development, conversion-optimized copy, up to 3 revision rounds.

Technical Writing & Documentation

Tier	Price	Details
Basic	\$150/page	Clear documentation of a straightforward process or feature, based on client-provided information, up to 1 revision round. (Page ≈ 500 words.)
Standard	\$250/page	Structured technical documentation requiring organization and light research (user guides, how-tos, internal documentation) up to 2 revision rounds.
Advanced	\$400/page	In-depth technical writing requiring subject-matter research and precision (API/developer documentation, technical specifications) up to 3 revision rounds.

Editing & Proofreading

Service	Price
Proofreading (final polish - typos, grammar, formatting)	\$25 per 1,000 words
Copy editing (grammar, structure, consistency, flow)	\$40 per 1,000 words
Content / developmental editing (restructuring, clarity, substantive rewrites)	\$80 per 1,000 words

A minimum project fee of \$75 applies to editing and proofreading requests under 3,000 words.

Brand Voice Development

Service	Price
Brand voice guide (tone, vocabulary, and sample messaging across key contexts)	From \$600

Scoped individually based on the number of contexts covered (e.g., web, social, email) and confirmed in writing.

Long-Form, Creative & Narrative Content

Service	Starting Price (CAD)
Blog post (up to 800 words)	\$150
Long-form article or essay (1,500 - 3,000 words)	\$450
Ghostwriting, long-form (per 1,000 words, includes 1 revision round)	\$275/1,000 words
Creative writing - short fiction or narrative pieces (per 1,000 words)	\$200/1,000 words
Script or screenplay writing (per page, industry-standard format)	\$150/page
Narrative / story consulting session (structure, pacing, voice feedback)	\$80/session

Other Content Services

Service	Starting Price (CAD)
Product or service descriptions	\$25 per item
Email newsletter (design + copy)	\$200
Promotional caption or ad copy	\$100

Creative Writing Bundles

Brand Foundations Writing Bundle

A one-time bundle for a client establishing (or resetting) their written identity across a new or refreshed website.

Included Item	Individual Price
Brand voice guide	\$600
Standard-tier website copywriting, up to 5 pages	\$1,500
Long-form blog post (launch announcement or feature piece)	\$150

Individually: \$2,250. Bundle Price: \$1,900 flat - Bundle Savings: \$350.

Ongoing Content Bundle

A recurring monthly bundle that stacks with any retainer selection, for a client who wants a steady drumbeat of fresh, polished writing.

Included Item	Individual Monthly Price
2 blog posts/mo	\$300/mo
Editing / proofreading, up to 3,000 words/mo	\$120/mo
Brand voice consistency review	\$75/mo

Individually: \$495/mo. Bundle Price: \$425/mo - Bundle Savings: \$70/mo.

8. MONTHLY RETAINER MENU

The services below are the building blocks of a Custom Retainer Selection. Each item recurs monthly and continues each billing period until changed per How To Build Your Retainer.

Where a service is offered in Basic, Standard, and Advanced tiers, the tier reflects the level of customization, design complexity, and/or volume of work involved. Every client's work is completed to the same professional standard; the tier simply matches the price to the scope and complexity of what is being delivered. The client selects the tier that matches what the work requires; the service provider will recommend a tier during scoping if the client is unsure. Services without listed tiers are priced at a starting rate for typical scope; requests that are unusually large, intricate, or high-volume may be moved to the next tier where one exists, or quoted individually in writing where one does not.

Website Maintenance: Core Care Plans

A Core Care tier is the foundation of ongoing website maintenance and is required for any retainer that includes it. Each tier is cumulative, higher tiers include everything in the tiers below them.

Care Tier	Price	Included
Basic Care	\$275/mo	Uptime monitoring, monthly security & software updates, minor bug fixes/troubleshooting, monthly backup verification, up to 5 content updates/mo.
Standard Care	\$450/mo	Everything in Basic Care, plus up to 10 content updates/mo, bi-weekly performance monitoring & optimization, and coordination of hosting-related issues.
Advanced Care	\$650/mo	Everything in Standard Care, plus up to 20 content updates/mo, up to 10 new products/services/listings/portfolio entries per month, and priority scheduling of routine updates.

Stackable Add-Ons

Add-ons stack on top of any Core Care tier for clients needing more than their tier's included allocation.

Service	Price
Email marketing platform & template setup	\$400
Email automation workflow (e.g., welcome series, abandoned cart recovery)	From \$300

Email automation workflow pricing covers a sequence of up to 3 emails, including copy and template design. Additional emails are billed at \$75 each.

9. SERVICES NOT INCLUDED IN RETAINER

The following services are not included in any retainer selection. They are available as add-on projects, quoted separately, or priced under Website Creation Services or Product Design & Development Services above.

- New website pages or sections beyond what is selected
- Custom website functionality or feature development beyond what is selected
- Major website redesign projects
- E-commerce implementation
- Custom software or application development beyond what is selected (see Product Design & Development Services)
- Photography services
- Video production or editing
- Logo creation or complete rebranding projects
- Large-scale graphic design projects
- Search engine optimization campaigns (see One-Time / Project-Based Services for per-page SEO)
- Printed material production costs
- Third-party software subscriptions
- Domain registration or renewal
- Community management or customer service through social media platforms

10. ONE-TIME / PROJECT-BASED MENU SERVICES

The services below are available individually, with or without an active retainer. Prices listed are starting rates; final pricing is confirmed in writing after scope review. A 25% rush surcharge applies to any request requiring delivery within 48 hours.

Where Basic / Standard / Advanced tiers are shown below, they follow the same tier definitions introduced under the Monthly Retainer Menu; the tier reflects the level of customization, design complexity, and/or volume of work involved, not the level of care applied.

Website copywriting and all other forms of writing have moved to Section 7, Creative & Content Writing Services, above.

Website Development

Service	Starting Price (CAD)
New website page (added to existing site)	\$300+
New website feature or functionality	\$300+
Major page redesign	\$600+
Bulk content or catalogue updates (up to 50 items)	From \$250
Google Analytics setup	\$250
Website speed & performance optimization	\$200+
SEO optimization of existing pages	\$100 per page

Bulk content or catalogue updates beyond 50 items are billed at \$4 per additional item. For full new website packages, see Website Creation Services.

- **New website page:** \$300 base covers 1 standard content page (text & images, using existing site layout/components), up to 1 revision round. Custom one-off layout or embedded media: +\$150. Pages requiring their own interactive system (catalog, gallery, booking, etc.): priced via the Feature & Functionality Add-Ons under Website Creation Services instead.
- **New website feature or functionality:** \$300 base covers a small, well-defined addition using existing site patterns (e.g., a form field, minor layout change, small script tweak). Moderate custom features: +\$300. Advanced or custom-built functionality: quoted individually after scope review.
- **Major page redesign:** \$600 base covers redesign of 1 page's layout/visual structure using existing site components, up to 2 revision rounds. New custom components built from scratch: +\$150–\$300 depending on complexity, scoped individually.
- **Website speed & performance optimization:** \$200 base covers 1 site of up to 15 pages with standard media volume. Larger or media-heavy sites: +\$100 per additional 15 pages, or scoped individually for heavy custom builds.

Website SEO Audit & Report

Tier	Price	Details
Basic	\$500	Single-site technical & on-page audit (up to 10 pages), prioritized findings summary.
Standard	\$700	Up to 25 pages, competitor comparison (up to 2 competitors), keyword gap review.
Advanced	\$900+	Includes up to 40 pages (single-site) or up to 2 sites at reduced scope, full competitor benchmarking (up to 3 competitors), and content strategy recommendations. Additional pages beyond 40: +\$150 per 20 pages. Additional sites in a multi-site audit: +\$300 each.

Graphic Design & Promotional Materials**Promotional Flyer (One-Off)**

Tier	Price	Details
Basic	\$350	Single-page flyer, clean layout using existing brand assets, up to 3 revision rounds.
Standard	\$600	Advanced custom layout and design treatment, minor custom graphics/icons, up to 3 revision rounds.
Advanced	\$900+	Includes up to 2 initial concept directions and up to 3 revision rounds, fully custom illustrated or highly designed layout, priority turnaround. Additional concept directions: +\$200 each. Additional revision rounds beyond 3: +\$100 each.

Marketing Graphics (Single Post)

Tier	Price	Details
Branded Graphic	\$150	Clean templated graphic using existing brand assets and stock imagery.
Custom Promotional Graphic	\$300–500	Custom-designed graphic with tailored visual treatment.
Campaign Illustration / Hero Graphic	\$700+	Includes up to 2 initial concept directions and up to 2 revision rounds, fully custom illustrated or highly designed graphic. Additional concept directions: +\$100 each. Additional revision rounds: +\$50 each.

Logo Design

Tier	Price	Details
Basic	\$1,000	Single concept, up to 3 revision rounds, primary logo file set.
Standard	\$1,500	2 initial concepts, up to 3 revision rounds, primary + secondary logo variations, full file package.
Advanced	\$2,500+	Includes 3 initial concepts, up to 4 revision rounds, full brand mark system (primary, secondary, icon/favicon variations), and extensive file package. Additional initial concepts: +\$300 each. Additional revision rounds beyond 4: +\$150 each.

Brand Identity Package

Tier	Price	Details
Basic	\$1,500	Basic-tier logo, core colour palette, primary/secondary fonts, 1-page brand guideline.
Standard	\$2,000	Standard-tier logo, full colour system, typography system, multi-page brand guideline, basic collateral templates (business card, letterhead).
Advanced	\$4,000+	Includes Advanced-tier logo, full brand system, a guideline document up to 15 pages, and up to 5 collateral templates, plus usage & voice guidelines. Additional guideline pages: +\$50 each. Additional collateral templates: +\$150 each.

Other Graphic Design Services

Service	Starting Price (CAD)
Marketing graphic pack (3 posts, Basic tier)	\$400
Event promotion campaign (graphics + copy)	\$600
Business card design	\$250
Banner or signage design	\$200+

Banner or signage design: \$200 base covers 1 design, up to 2 sizes/formats, and 1 revision round. Additional sizes/formats: +\$50 each. Additional revision rounds: +\$50 each.

Final pricing depends on dimensions, number of variants, required source material, illustration, and intended print or digital usage.

All services require written approval and a 50% deposit before work begins for projects over \$300. Deposits are non-refundable once work has commenced. Rush surcharge of 25% applies to any delivery requested within 48 hours of booking.

11. CLIENT RESPONSIBILITIES

- The client is responsible for providing all required information, content, images, pricing, inventory data, approvals, and access credentials necessary for the completion of services.
- The client remains responsible for the accuracy and legality of all content and promotional materials published under this agreement.
- Delays in providing information, approvals, feedback, or required assets may affect delivery timelines. Such delays are not the responsibility of the service provider and do not entitle the client to a billing adjustment or service credit.
- Where scheduling assistance is included, the client is responsible for providing access to the relevant social media platform(s) via admin login credentials, an approved third-party scheduling tool, or another method mutually agreed upon in writing. The service provider will handle all access information securely and in confidence.
- The client acknowledges that the service provider is not responsible for posting content without platform access being provided.

12. SERVICE LIMITATIONS

- The monthly retainer covers routine website maintenance and marketing support as outlined in the client's Custom Retainer Selection only.
- The retainer does not include unlimited revisions, content creation, design work, website modifications, or update requests beyond what is selected.
- Requests significantly exceeding a selected service's scope may require a separate project quote and written approval before work begins.
- Routine support is provided during normal business hours only.
- Emergency, after-hours, weekend, holiday, or rush support is not included and may be billed separately at the rates defined under Support & Response Time Levels or One-Time / Project-Based Menu Services.

13. CONFIDENTIALITY

Both parties agree to keep confidential all non-public information disclosed in connection with this agreement, including but not limited to business strategies, pricing, login credentials, client data, customer information, and proprietary systems.

The service provider will handle all client-provided login credentials, platform access, and business information securely and will not share, sell, or disclose such information to any third party without the client's prior written consent.

These confidentiality obligations do not apply to information that: (a) is or becomes publicly available through no fault of the receiving party; (b) was already known to the receiving party prior to disclosure; (c) is independently developed without reference to the disclosing party's confidential information; or (d) is required to be disclosed by law or court order, provided the disclosing party gives reasonable notice where legally permitted.

These confidentiality obligations survive the termination of this agreement and remain in effect indefinitely with respect to any information that remains non-public.

14. PURCHASES & FINANCIAL RESPONSIBILITY

- The client is solely responsible for all purchases, subscriptions, hosting fees, domain registration fees, software licenses, third-party services, and other business-related expenses.
- Advertising spend, including social media advertising and paid search, is paid directly by the client and is not included in the monthly retainer fee.
- The service provider shall not purchase items on behalf of the client unless otherwise agreed in writing in advance.

15. PAYMENT TERMS

- A one-time setup fee is billed with the first invoice and is non-refundable once the client has signed this agreement and paid the first invoice, as onboarding is deemed to have commenced at that point regardless of the amount of onboarding work completed.
- Monthly retainer invoices are issued in advance at the start of each billing period and reflect the client's current Custom Retainer Selection, unless otherwise agreed in writing.
- Payment is due within seven (7) calendar days of the invoice date.
- Services may be suspended if payment remains outstanding for more than fourteen (14) calendar days after the due date.
- Overdue balances may be subject to a late payment charge of 2% per month or the maximum amount permitted by applicable law, whichever is less.
- All pricing is in Canadian Dollars (CAD). Pricing under a client's Custom Retainer Selection is fixed for the duration of the agreed-upon retainer term, including the initial three (3) month term, except where an increase is necessary due to a documented increase in third-party costs, platform or hosting fees, scope of service, or applicable taxes. Outside of such circumstances, pricing may be adjusted with thirty (30) days written notice to the client.
- The service provider is not currently registered to collect Goods and Services Tax/Harmonized Sales Tax (GST/HST), and no tax is currently added to invoices. If the service provider becomes required by law to collect applicable taxes, such taxes will be added to invoices with thirty (30) days written notice to the client.

16. INTELLECTUAL PROPERTY

- Upon receipt of full payment for all outstanding balances, the client shall own all final deliverables specifically created for the client under this agreement.
- In the event of cancellation, non-payment, or outstanding balances at the time of termination, ownership of deliverables does not transfer until all amounts owing have been paid in full. The service provider retains the right to withhold delivery of work product until payment is received.
- The service provider retains ownership of all pre-existing materials, templates, tools, frameworks, methodologies, and proprietary systems used in the performance of services.
- Where a final deliverable incorporates the service provider's pre-existing proprietary materials, templates, tools, frameworks, or methodologies, the service provider grants the client a perpetual, non-exclusive, royalty-free license to use, host, and modify those materials solely as incorporated into that deliverable, for the client's own business purposes.
- The service provider may display completed work in portfolios and promotional materials unless otherwise agreed in writing.

17. LIMITATION OF LIABILITY

- The service provider shall not be liable for indirect, incidental, consequential, special, or punitive damages arising from or related to this agreement or the services provided.
- Total liability of the service provider shall not exceed the total fees paid by the client during the three (3) months immediately preceding the claim.
- The service provider is not responsible for third-party outages, platform changes, hosting failures, or interruptions beyond its reasonable control.

18. INDEMNIFICATION

- The client agrees to indemnify, defend, and hold harmless the service provider, its owners, employees, and subcontractors from and against any claims, damages, losses, liabilities, costs, and expenses (including reasonable legal fees) arising out of or related to content, materials, data, or instructions provided by the client for use in services under this agreement.
- This includes any claim that client-provided content or materials infringe the intellectual property, privacy, or other rights of a third party, or that the client's use of any deliverable violates applicable law.
- This includes any claim arising from the client's breach of any representation, warranty, or obligation under this agreement.

This indemnification obligation survives termination of this agreement.

19. NO GUARANTEE OF RESULTS

The service provider does not guarantee specific business outcomes, sales figures, social media growth, search engine rankings, or advertising performance. Marketing activities are provided on a best-efforts basis.

20. SERVICE INTERRUPTION

The service provider will make reasonable efforts to provide uninterrupted services throughout the term of this agreement. In the event of a temporary inability to deliver services due to illness, emergency, technical failure, or circumstances beyond their reasonable control, the service provider will notify the client as soon as reasonably practicable.

Where a service interruption is caused by the service provider and results in a material failure to deliver agreed services within a billing period, the client may request a prorated credit for the affected period. Such credits will be applied to a future invoice.

The service provider shall not be liable for delays or failures caused by circumstances outside their reasonable control, including but not limited to natural disasters, power outages, or third-party platform failures.

Force Majeure: Neither party shall be liable for any failure or delay in performing its obligations under this agreement, other than payment obligations, where such failure or delay results from events beyond that party's reasonable control, including but not limited to natural disasters, pandemics, acts of government, war, civil unrest, internet or utility outages, or third-party platform failures. The affected party will notify the other party as soon as reasonably practicable, and both parties will work in good faith to resume performance.

21. GENERAL TERMS

- The initial term of this agreement is three (3) months from the effective date, followed by month-to-month service unless cancelled with proper notice.
- Following the initial term, either party may cancel this agreement with thirty (30) days written notice.
- Early termination during the initial three-month term: If the client cancels prior to the end of the initial term, a written notice is required. The client remains responsible for payment for the remainder of the initial term unless the service provider agrees otherwise in writing. If the service provider terminates early without cause, any prepaid amounts for undelivered services will be refunded on a prorated basis.
- Termination for cause: The service provider may terminate this agreement immediately upon written notice if the client: (a) fails to make payment within the period specified under Payment Terms; (b) requests the publication of illegal, defamatory, or harmful content; (c) engages in abusive, threatening, or harassing conduct toward the service provider; or (d) materially breaches any other term of this agreement and fails to cure the breach within five (5) business days of written notice.
- Termination for cause by client: The client may terminate this agreement immediately upon written notice if the service provider materially breaches this agreement and fails to cure the breach within five (5) business days of written notice.
- Unused services do not roll over to future months.
- Work outside the client's Custom Retainer Selection requires written approval before work begins.
- Adding or removing services follows the process described under How To Build Your Retainer.
- This agreement is governed by the laws of the Province of Ontario and the applicable federal laws of Canada. Any disputes arising from this agreement shall be subject to the exclusive jurisdiction of the courts of Ontario.
- Amendment: The service provider may update or amend this agreement from time to time. Material changes will be provided to the client in writing at least thirty (30) days before taking effect. Continued use of services after the effective date of an amendment constitutes acceptance of the updated terms. If the client does not agree to an amendment, the client may terminate this agreement in accordance with the cancellation terms above, effective before the amendment's effective date.
- Entire Agreement: This agreement, together with any signed project proposals or written amendments, constitutes the entire agreement between the parties and supersedes all prior discussions, understandings, or agreements, whether written or oral, relating to its subject matter.
- Severability: If any provision of this agreement is found to be invalid or unenforceable, that provision will be limited or removed to the minimum extent necessary, and the remaining provisions will continue in full force and effect.

- Assignment: Neither party may assign or transfer this agreement without the prior written consent of the other party, except that the service provider may assign this agreement without consent in connection with the sale or transfer of its business.
- Notices: Any formal notice required under this agreement shall be sent in writing to the email address or mailing address listed on the signature page, or to any updated address provided in writing, and is considered received on the date sent.

22. DEFINITIONS

Website Maintenance

Routine activities required to keep a website functioning properly, including software updates, security updates, bug fixes, backup verification, troubleshooting, and general upkeep.

Content Update

A modification to existing website content such as text, images, pricing, availability information, contact information, service descriptions, product information, or similar business content.

Content or Inventory Submission

A single batch of related updates provided by the client. Requests containing unusually large volumes of changes may be considered outside routine support and may require a separate quotation.

Social Media Post

A completed piece of promotional content prepared for publication on one or more social media platforms. A post may include text, client-provided images, simple promotional layouts, links, or related marketing content.

Promotional Flyer

A single-page marketing document created for digital distribution, print distribution, or both. Flyers include up to three revision rounds unless otherwise agreed in writing.

Marketing Campaign

A coordinated promotional effort focused on a specific event, product, service, seasonal promotion, sale, or business objective.

Routine Support

Standard services included within the client's selected services that can reasonably be completed within the scope of ongoing monthly maintenance and marketing activities.

Major Project

Any request that falls outside routine support, including but not limited to website redesigns, custom functionality, branding projects, large-scale content creation, e-commerce implementation, or similar work requiring separate planning and quotation.

Business Hours

Monday through Friday, 9:00 AM to 5:00 PM Eastern Time, excluding statutory holidays.

Rush Request

Any request where the client requires delivery within 48 hours of submission. Rush requests fall outside routine scheduling, may be subject to an additional fee, and are accepted at the service provider's discretion.

Written / In Writing

For the purposes of this agreement, “written” or “in writing” means email correspondence or a signed document. Text messages do not constitute written notice unless confirmed by email within 24 hours.

Deliverable Approval

A deliverable is considered approved and accepted if no written feedback or objection is received within five (5) business days of the deliverable being sent to the client in writing. Approved deliverables are not subject to further revision under the monthly allocation.

Custom Retainer Selection

The specific combination of recurring monthly services chosen by the client from the à la carte menus in this agreement, which together make up the client's monthly retainer.

Minimum Monthly Retainer

The lowest total combined monthly value a client's Custom Retainer Selection must reach in order to be maintained as an active retainer under this agreement, as set out under How To Build Your Retainer.

23. SIGNATURES
